NEEDS AND USES: The Defense Technical Information Center (DTIC) requires all eligible users to be registered for access to DTIC's repository of access-controlled scientific and technical information documents. The Defense User Registration System (DURS) collects registration requests from respondents, validates their eligibility, and maintains an official registry that identifies individuals who apply for, and are granted access privileges to DTIC owned or controlled databases, products, services, and electronic information systems. The registration of a user enforces validation of an individual's identity, as well as that individual's persona (i.e., whether the individual is DoD, Federal government, or a contractor supporting the DoD or another federal agency) and authority to access limited and classified documents with distribution controls. A role-based environment based on a user's identification ensures security for DTIC's electronic information collection while the online systems increase availability of information to each user based on his or her mission needs.

AFFECTED PUBLIC: Individuals or Households; Business or Other For-Profit; Not-For-Profit Institutions.

FREQUENCY: On occasion.

RESPONDENT'S OBLIGATION: Voluntary.

OMB DESK OFFICER: Ms. Jasmeet Seehra.
